-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 3-9, 11-14, 23-27, and 33-37 are allowed.
2. Claims 10, and 28-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(Please see paragraph 10 of the previous office action in this regard.)

3. Applicant's arguments filed 9-13-04' have been fully considered but they are not persuasive.

Applicant argues the following points regarding the examiner's rejection of their claimed subject matter.

-Applicant argues that claim 10 does not require the ashing step to remove the remaining portion of the high K dielectric layer. Thus, there are 112 2nd paragraph issued with this claim in this regard.

The examiner must disagree.

-Claim 10 recites that the plasma ashing step removes the remaining portion of the high K dielectric layer. Since the plasma ashing step occurs between the first, and second etching step, there would be no portion of the high K dielectric layer available to be etched during the second etch step based upon this statement. Applicant's recitation of the second etching step removing at least a portion of the high K dielectric layer is incorrect since the previous plasma ashing step would have already removed all of the remaining portion of the high K dielectric layer. Further, applicant's arguments regarding claim 10 conflicts with

the contents of claim 10. The examiner therefore cannot tell exactly what subject matter applicant is trying to claim in claim 10.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication should be directed to examiner George A. Goudreau at telephone number (571)-272-1434.
